

My Net™ AC1300

HD Dual-Band Router

**Blazing-fast AC
Wi-Fi™ speed made
better with exclusive
FasTrack™ technology**

FasTrack Technology

Up to 450 + 1300 Mbps*

4 Gigabit Ethernet , 2 USB Ports

The My Net AC1300 HD Dual-Band router with next generation AC Wi-Fi speeds just got better with exclusive FasTrack technology. FasTrack prioritizes popular entertainment services and network traffic like movies, chat and online games. Dual-Band speeds up to 450 + 1300 Mbps* deliver the ultimate Wi-Fi entertainment experience.

My Net AC1300

HD Dual-Band Router

Product Features

The ultimate HD entertainment experience with exclusive FasTrack.

Next generation AC Wi-Fi just got better with My Net's exclusive FasTrack technology. FasTrack recognizes and prioritizes entertainment traffic like movies, chat, and online games, preserving bandwidth for the ultimate HD performance.

Ridiculously fast speeds

With Dual-Band speeds up to 450 Mbps on the 2.4 GHz band and 1300 Mbps on the 5 GHz band delivering the ultimate wireless entertainment experience.

More bandwidth with Dual-Band technology

The My Net AC1300 features 802.11n on 2.4 GHz band and 802.11ac on 5 GHz band. Both bands work simultaneously to significantly increase throughput and reduce interference for ultra-fast HD streaming to all Wi-Fi devices on your network.

4 Gigabit Ethernet ports

Extra high-speed ports for your connected devices - HD game boxes, media players, Blu-ray Disc™ players and more. Each port delivers 10x the speed over Fast Ethernet.

2 USB Ports

Convenient USB ports make it easy to add external storage such as My Book® or My Passport® hard drives, shared printers, scanners and other USB devices.

Easily add devices to your network

With UPnP™, My Net AC1300 makes it easy to discover and auto-configure other devices on your network.

You're in control

The My Net Dashboard makes it easy for you to customize, monitor or change your settings on your network, access parental controls, Internet security, network name and password and connected storage drive settings all in one easy view.

Network diagnostic tool

The included network diagnostics tool monitors your network for you. It shows how many devices are on your network, analyzes common network connectivity issues and helps correct them when they occur so you are back up and running quickly.

Share your network with guests

Set up your own secure wireless hotspot in your home so your guests can wirelessly access your network.

Parental controls and Internet security

Use parental controls to filter the websites your children can view, set restrictions and time limits for their web access.

Delightfully simple setup

No CD or software required. Setup is as easy as plugging in your new router and connecting to a web browser to the automatic UI on any smartphone, tablet or PC.

Adding new devices is a snap

Easily connect new devices to your wireless network with the push of a button using WPS. It's just as easy as syncing your mobile phone to your Bluetooth® device. Within seconds you can expand your network to include other WPS-enabled wireless devices like game consoles, range extenders and wireless bridges.

Advanced QoS (WMM)

In addition to our industry leading FasTrack technology, we also pre-enable Advanced QoS on our routers, the industry standard of packet prioritization based on voice, video and best effort traffic.

IPv6-enabled

Future-proof your network with support for the latest Internet Protocol technology.

WPA/WPA2, SPI firewall

We protect your wireless network with WPA/WPA2 and SPI firewall security. Only the data you want gets through, hackers are blocked, and your network is protected.

Product Specifications

INTERFACE

4 Gigabit Ethernet ports
2 USB ports

DIMENSIONS

Length: 1.4 in (36.2 mm)
Depth: 6.6 in (168.8 mm)
Width: 9.0 in (230.5 mm)
Weight: 0.96 lb (0.44 Kg)

SYSTEM REQUIREMENTS

Supported browsers: Internet Explorer® 7, Safari® 2, Firefox® 2, Google® Chrome™ 7 or higher

MODEL NUMBER

WDBWNJ0000NBL

KIT CONTENTS

HD dual-band router
Setup and resource CD
Ethernet cable
AC adapter
Quick Install Guide

LIMITED WARRANTY

Pan Americas 1 year
EMEA 2 years
Asia Pacific 3 years

Web setup: type in <http://wdrouter> or 192.168.1.1

Resource CD: Windows® 8, Windows 7, Windows Vista®, Windows XP and Mac® operating systems.

* Maximum wireless performance rate derived from IEEE standard 802.11 specifications. Performance may vary based on broadband Internet service, wireless performance factors and wired Ethernet performance of the device. Actual data throughput and wireless coverage may vary based on wireless network capacity, data throughput rate, range and coverage. Performance depends on factors including distance from the access point, volume of network traffic, building materials and construction, operating system used, configuration of wireless products used, interference and other adverse conditions. All wireless speeds are link rate speeds.
