

Quick Start Guide and Safety & Compliance

The device is a hands-free, voice-controlled device. The device has a small built-in speaker—it can also connect to your speakers over Bluetooth or with the audio cable. The device connects to the Voice Service to play music, provide information, news, sports scores, weather, and more—instantly.

Set Up Your Device

Download and install the latest version of the app.

During setup, your device will need to connect to the internet. Please have your Wi-Fi password available.

To set up your device:

- 1) Open the app
- 2) Tap the menu button and go to your Account
- 3) Under “Your devices”, tap “Set up a new device.”
- 4) Follow onscreen setup instructions

Once successfully activated and connected to your WiFi network, your Device will be ready for use.

Safety and Compliance Information

Use Responsibly. Read all instructions and safety information before use.

FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS COULD RESULT IN FIRE, ELECTRIC SHOCK, OR OTHER INJURY OR DAMAGE.

Other Safety Considerations

- Your device is shipped with an AC adapter. Your Device should only be charged using the AC adapter and USB cable included with the device, or another USB cable approved for use with your Device, with a compatible AC adapter.
- Do not expose adapter or cable to liquids.
- If the adapter or cable appears damaged, discontinue use immediately.
- Power adapter designed only for use with Device.
- Do not touch your Device or any wires connected to your Device during a lightning storm.
- Small parts contained in your device and its accessories may present a choking hazard to small children.
- Personal medical devices, such as pacemakers, may be sensitive to magnetic and electromagnetic fields. Since the Device remote holder contains magnets and emit electromagnetic fields, it should be kept at least 6 inches (approximately 15 cm) from any personal medical device. If any interference is observed, consult with your physician before resuming use. Items with magnetically-stored data, such as credit cards and hard drives, may also be sensitive to magnetic or electromagnetic fields, and should not be placed near the Device remote holder.

Using Your Device Around Other Electronic Devices

Device generates, uses, and can radiate radio frequency (RF) energy and, if not used in accordance with its instructions, may cause interference to radio communications and electronic equipment. External RF signals may affect improperly installed or inadequately shielded electronic operating systems, entertainment systems, and personal medical devices. While most modern electronic

equipment is shielded from external RF signals, if in doubt, check with the manufacturer. For personal medical devices (such as pacemakers and hearing aids), consult with your physician or the manufacturer to determine if they are adequately shielded from external RF signals.

FCC Compliance Statement

The Device and its related accessories like the remote and the adapter (the "Products") comply with part 15 of the FCC Rules. Operation of each Product is subject to the following two conditions: (1) this Product may not cause harmful interference, and (2) this Product must accept any interference received, including interference that may cause undesired operation.

Note: This Product has been tested and found to comply with the limits for a Class B digital device or external switching power supply, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.
- Changes or modifications to a Product by the user that are not expressly approved by the party responsible for compliance could make the Product no longer comply with the FCC Rules.
- The Device and the Device remote meet the FCC Radio Frequency Emission Guidelines and are certified with the FCC. Information on these Products is on file with the FCC and can be found by inputting such Product's FCC ID (which can be found on the bottom of the Device or in the battery compartment of the remote) into the FCC ID Search form available at transition.fcc.gov/oet/ea/fccid.

Information Regarding Exposure to Radio Frequency Energy

The output power of the radio technology used in the Products is below the radio frequency exposure limits set by the FCC. This device should be installed and operated with a minimum distance of 20cm between the radiator and your body.

Recycling Properly

In some areas, the disposal of certain electronic devices is regulated. Make sure you dispose of or recycle the Products in accordance with your local laws and regulations.

Product Specifications

Model No.: RS03QR

Ports: 3.5mm Audio Output Connector.

Power: AC power adapter: 5 VDC, 1.8 A.

Connectivity: Dual Band (2.4/5 GHz) 802.11 a/b/g/n. BT 3.0 / BLE 4.1

Operating temperature: 32°F to 95°F (0°C to 35°C).

Storage temperature: 14°F to 113°F (10°C to 45°C).
