Linksys

Wireless-N Range Extender
Quick Installation Guide

- 1 Insert the CD into your CD or DVD drive. Make sure that the computer is already connected to your home network.

- 2 Click **Set up your Linksys Extender**.
If you do not see this:

For Windows, find and click **Computer**, then double-click the **CD** drive and the **Setup** icon.

For Mac, double-click the **CD** icon on your desktop, then double-click the **Setup** icon.

- 3 Follow the on-screen instructions.

Congratulations!

Now that your extender is set up, visit Linksys.com/support if you have questions and to learn about advanced features

Tips for Successful Setup

- ☑ Avoid placing the extender or the associated router near metal objects, reflective surfaces, and masonry walls.
- ☑ Place the extender close to the router or access point during initial setup, then move the extender to its final location after setup.
- ☑ For the best positioning of your extender, test it in multiple locations.
