

arlo™

Arlo Security Light System  
Quick Start Guide

# Welcome

Thank you for choosing Arlo.  
Getting started is easy.

## What's Included

Arlo Bridge

Wire-Free Smart Security Light

Outdoor security mount

Rechargeable battery

USB cable

AC power adapter (varies by region)

Window decal

## Get the App

Download the Arlo app for your smartphone or tablet by scanning this QR code or searching for Arlo in the app store.

[arlo.netgear.com](http://arlo.netgear.com)

**Note:** If you already use the Arlo app, make sure that you are using the latest version. To find out if an update is available, go to the App store and search for Arlo.

## Set Up Your Security Light System

1. Launch the Arlo app from your smartphone or tablet.
2. Create an account or log in.  
If you did not set up an Arlo account yet, tap **New to Arlo?** and create an account.  
If you already use an Arlo account, log in to the app.
3. Tap **Add Device**.
4. Tap **Arlo Security Lights**.
5. Follow the onscreen instructions to add the bridge and each security light.

## Mount Your Security Light

1. Use the provided screws to attach the mount to a wall.

2. Tighten the metal collar on the mount to secure the post.
3. Screw the security light onto the threaded post.
4. Tighten the plastic collar to secure the light.

5. Tilt and swivel the light to the position you prefer.

## You're Done!

Congratulations! Your Arlo Security Light System is set up and ready to go.

To view useful tutorial videos, find troubleshooting tips, or get support, visit [support.arlo.com](https://support.arlo.com).

## Charge the Battery

You can use the USB cable and the AC power adapter to charge the battery in your security light.

1. If you are using the security light outdoors, move it indoors while you are charging the battery.

The security light and the wall socket must be indoors.

2. Connect the USB cable to the security light and to the AC power adapter.
3. Plug the AC power adapter into a wall socket.

The battery charges automatically.

## Power On the Bridge

Before you plug in the bridge for the first time, we recommend that you follow the instructions in the Arlo app to add your security light system.

To power on the bridge, plug the bridge into a wall socket.

The bridge and the wall socket must be indoors. The prongs on the bridge vary by region.

## Insert a Battery Into a Security Light

Before you insert the battery for the first time, we recommend that you follow the instructions in the Arlo app to add your security light system.

1. Unlock the battery compartment cover by pressing and releasing the back of the security light.
2. Align the battery contacts.
3. Insert the battery.
4. Replace the battery compartment cover.

## **Federal Communications Commission (FCC) Statement**

### **This device complies with Part 15 of the FCC Rules.**

Operation is subject to the following two conditions:

- 1) this device may not cause harmful interference and
- 2) this device must accept any interference received, including interference that may cause undesired operation of the device.

15.21

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### **This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:**

- 1) this device may not cause harmful interference and
- 2) this device must accept any interference received, including interference that may cause undesired operation of the device.

### **FCC RF Radiation Exposure Statement:**

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

## **Canada, Industry Canada (IC)**

### **This device complies with Industry Canada licence-exempt RSS standard(s).**

Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device

**Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence**

L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

**Caution: Exposure to Radio Frequency Radiation.**

To comply with RSS 102 RF exposure compliance requirements, a separation distance of at least 20 cm must be maintained between the antenna of this device and all persons.

Pour se conformer aux exigences de conformité CNR 102 RF exposition, une distance de séparation d'au moins 20 cm doit être maintenue entre l'antenne de cet appareil et toutes les personnes.

**CE RED**

- (a) frequency band(s) in which the radio equipment operates;
- (b) maximum radio-frequency power
- (c) accessories
- (d) software

This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.
