

Quick Installation Guide

Your step by step installation guide

Quick Installation Guide

Setup Overview

Step 1
1 Hardware Connections:
Use the instructions in this guide to connect your Modem-Router.

Step 2
2 Automatic Configuration:
Insert the CD into your computer and follow the on-screen instructions. Please ensure you have your broadband/VoIP username and password available before proceeding.

Step 3
3 Connect other Computers:
The CD can assist you in connecting other computers to your new network.
[Optional]

Step 1 - Hardware Connections

A

Place the Modem-Router next to the computer.

B

Find your new networking cable (it came in the box with your Modem-Router) and connect it to a yellow port on the back of the Router (Labelled LAN1 to LAN4).

C

Find your new telephone cable (it came in the box with your Modem-Router) and connect it to the grey port on the back of the Modem-Router (Labelled ADSL line).

Connect the other end to your telephone socket on the wall.

Step 1 - Hardware Connections (continued)

(D)

Plug the Modem-Router's power supply into the black port on the back (Labelled PWR).

Plug the other end into the wall outlet.

(E)

Wait 20 seconds for the Modem-Router to start up.

Look at the display on the front of the Router.

Make sure the "Power" and "Wired" icons are lit up in blue. If they are not, recheck your connections.

Step 2 - Setup Assistant

Insert the CD into your computer.

The Setup Assistant will automatically appear on your computer's screen.

Follow the instructions there and you are finished!

Support

Belkin and iiNet provides free technical support via phone and the Web. However, we encourage you to attempt (or retry) Steps 1 and 2 before contacting Support. The Setup Assistant has built-in intelligence to help diagnose and fix common problems. If you're still having trouble, contact Belkin Support.

If you're still having trouble, please contact contact iiNet or Belkin support for assistance.
