

INT-524681-QIG-0809-03

INTRODUCTION

Thank you for purchasing the INTELLINET NETWORK SOLUTIONS[™] Wireless 300N 3G Router, Model 524681.

This quick install guide presents the basic steps required for setting up and operating this device. For detailed instructions and specifications, refer to the user manual on the CD enclosed with this product at www.intellinet-network.com.

System Requirements

 For a complete list of compatible 3G USB modems, visit www.intellinet-network.com

Package Contents

- Wireless 300N 3G Router
- · Power adapter
- Ethernet Cat5 RJ45 cable: 1.0 m (3 ft.)
- USB extension cable: 1.0 m (3 ft.)
- · User manual on CD; quick install guide

NOTE: Some screen images have been modified to fit the format of this guide. Screen images on all compatible operating systems are similar.

CONNECTIONS

 With the router properly positioned on a flat, stable surface, connect your 3G / 3.5G USB modem by inserting it in the USB port on the right side of the router's front panel (below).

Connect all your computers, network devices (such as game consoles or switches/hubs) to the LAN port(s) of the router (back panel, below).

3. Plug the power adapter into an AC electrical outlet, then connect it to the 12VDC jack on the router. The Power LED on the front panel should be on, and the other LEDs should light if the devices they correspond to are also powered on and properly connected to the router. (If they don't, check the connections.)

NETWORK SETUP

The following procedure is for configuring the Wireless 300N 3G Router using your Web browser. *NOTE:* For the initial configuration, a computer with a wired Ethernet connection is required.

 Set your computer to obtain an IP address from the wireless router: Go to Start (in the lower-left corner of your desktop), then go to Control Panel. Double-click Network Connections, then double-click Local Area Connection. When the Local Area Connection Status screen displays, click "Properties."

📥 Local Area Con	nection Status	? 🔀
General Support		
Connection		
Status:		Connected
Duration:		03:27:14
Speed:		100.0 Mbps
Activity	Sent — 🚮 -	- Received
Packets:	5,866	3,273
Properties	<u>D</u> isable	
		<u>C</u> lose

2. When the Local Area Connection Properties screen displays, select "Internet Protocol (TCP/IP)," then click "Properties."

Alternate DNS server:	· · ·		
	Ad <u>v</u> anced		
OK Cancel			

4. Go to Start again, then Run. Enter "cmd," then click "OK."

5. Enter "ipconfig," then press <Enter>. Check the "IP Address" and "Default Gateway" settings. (In the example below, the IP address of router — the default gateway — is 192.168.2.1.)

C:\Documents and Settings\home user>_

6. Activate your Web browser and enter the IP address of the router in the browser's address bar. When the subsequent Login window displays (right), fill in the "User name" and "Password" fields (username default is "admin"; password default is "1234"), then click "OK" to present the Web management interface of the router.

Connect to 192.1	68.2.1 🛛 🛛 🔁
Default: admin/1234	
User name:	2
Password:	
	Remember my password
	OK Cancel

 When the Home screen of the Web management interface displays, click the Quick Setup button on the left.

8. When the subsequent Time Zone screen displays, select your local time zone from the drop-down menu and click "Next."

Set Time Zone :	(GMT-06:00)Central Time (US & Canada)		
Time Server Address :	192.43.244.18		
Daylight Savings :	C Enable Function Times From January V 1 V To January V 1 V		
	Next		

When the subsequent Broadband Type screen displays, select "3/3.5G" for the Internet connection, then click "Next."

 When the next screen displays the settings options (below), enter the Internet connection values if/as required by your 3G / 3.5G service provider. Click "OK."

3G/3.5G

Enter the User Name, Password, APN, PIN Code and Dialed Number provided to you by your service provider in the appropriate fields.

• 3G/3.5G Settings :

PIN Code :	
APN :	internet
User Name :	
Password :	
Verify Password :	
Service :	3G/3.5G Only (UMTS/HSPA/HSDPA)
AT Dial Script :	*99#

11. With the Basic Settings screen displayed, make the selections/entries you prefer, then click "Next."

Basic Settings	
This page allows you to define ESSI stations to connect to the Access P	D, and Channel for the wireless connection. These parameters are used for the wireless oint.
Wireless Module :	Disable
Band :	2.4 GHz (B+G+N)

Channel Number :	11 💌
Associated Clients :	Show Active Clients
	BACK

12. To protect your wireless network, it's recommended that the security be enabled. Select a security type from the drop-down menu, enter the encryption key, then click "OK."

Security Settings				
This page allows you setup the wirel prevent any unauthorized access to	ess security. Turn your wireless netw	on WEP or ork.	WPA by using Encr	yption Keys could
Encryption :	Disable	~		
Enable 802.1x Authentication	1			
			BACK	OK

13. When the prompt appears to restart the system, click "Apply." A status message will display, indicating that the router will be ready for operation in approximately 30 seconds. Once the router is ready for use, connect to any Internet site or open any Internet application to check that they're working properly.

WASTE ELECTRICAL & ELECTRONIC EQUIPMENT

Disposal of Electric and Electronic Equipment

(applicable in the European Union and other European countries with separate collection systems)

ENGLISH

This symbol on the product or its packaging indicates that this product shall not be treated as household waste.

Instead, it should be taken to an applicable collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences to the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. If your equipment contains easily removable batteries or accumulators, dispose of these separately according to your local requirements. The recycling of materials will help to conserve natural resources. For more

detailed information about recycling of this product, contact your local city office, your household waste disposal service or the shop where you purchased this product. In countries outside of the EU: If you wish to discard this product, contact your local authorities and ask for the correct manner of disposal.

DEUTSCH

Dieses auf dem Produkt oder der Verpackung angebrachte Symbol zeigt an, dass dieses Produkt nicht mit dem Hausmüll entsorgt werden darf. In Übereinstimmung mit der Richtlinie 2002/96/EG des Europäischen Parlaments und des Rates über Elektro- und Elektronik-Altgeräte (WEEE) darf dieses Elektrogerät nicht im normalen Hausmüll oder dem Gelben Sack entsorgt werden. Wenn Sie dieses Produkt entsorgen möchten, bringen Sie es bitte zur Verkaufsstelle zurück oder zum Recycling-Sammelpunkt Ihrer Gemeinde.

ESPAÑOL
