

Wizard

Locate your PC's CD-ROM drive and insert the Setup CD-ROM. The Setup Wizard should run automatically and the Welcome screen should appear. If it does not, click the Start button and select **Run**. In the field that appears, enter D:\setup.exe (if "D" is the letter of your CD-ROM drive).

The first screen reminds you that you need a modem connected to your PC and an Internet connection before vou start.

Screen 2 asks you to disconnect the cable that connects the modem to the PC's network port.
