NETGEAR®

Broadband ADSL2+ Modem
DM111PSP

Package Contents:

Resource CD

ADSL2+ Modem
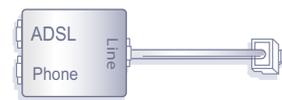

Filter/splitter
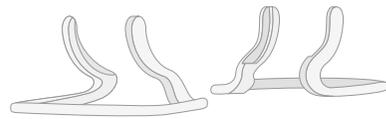

Modem feet
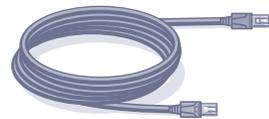

Telephone cable

Ethernet cable

Power adapter

4-Step Cable Connection:

Internet

Tip: Use an ADSL microfilter on every phone line in the house. If your modem and telephone connect to the same phone line, use an ADSL microfilter/splitter like the one shown here.
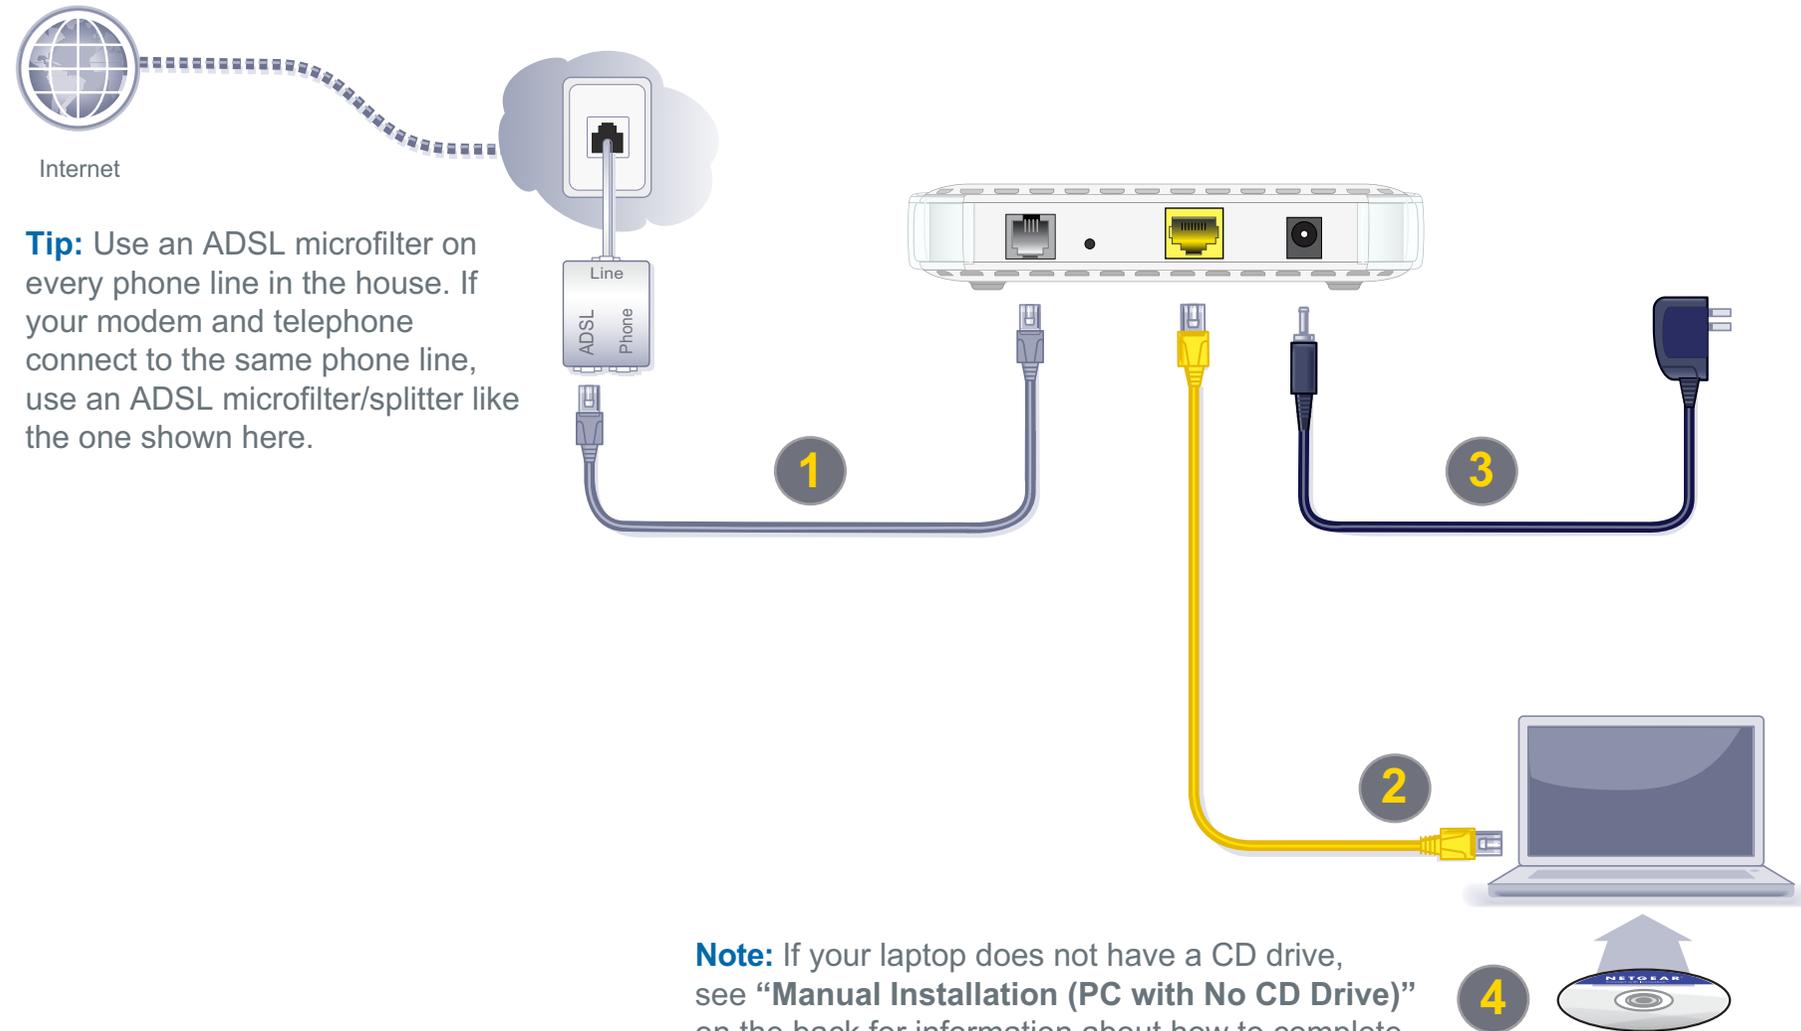

Note: If your laptop does not have a CD drive, see **"Manual Installation (PC with No CD Drive)"** on the back for information about how to complete your modem setup.

Manual Installation
(Linux, Mac, or PC with No CD Drive)

1. Follow Steps 1-–3 to connect the DM111PSP modem to your computer.
2. Check that the Power LED is green, and if it is not, power on the router and wait for the Power LED to turn green.

Set up Internet Connectivity

1. Type **http://www.routerlogin.net** in the web browser address bar. Press **Enter**.
2. Type **admin** for the user name and **password** for the password. Click **OK**.
3. Select **Setup Wizard** in the top-left corner and make sure Yes is selected under Auto-Detect Connection Type. Click **Next** to complete the Setup Wizard.
4. Select **Basic Settings** to see your settings.

Note: If your Internet service provider (ISP) requires you to log in, enter your ISP login information when prompted. The ISP login is *not the same* as the router login. If you do not have your ISP login information, contact your ISP and record it here:

ISP user name: _____

ISP password: _____
