# Connect Follow instructions on the screen

#### Connect power adapter

- Connect the supplied power adapter to the 9V DC port on the router
- Connect the power plug to the electricity supply socket
- > Power light will turn on

Move your mouse over the red circles on your screen to enlarge pictures

## Connect the modem to the router

- If your computer is already connected via Ethernet, then disconnect this cable from your computer
- Connect this Ethernet cable to the WAN port of the SNB5600
- > WAN light will turn on

## Connect the router to the PC

- Take the Ethernet cable provided in the box
- Connect this Ethernet cable to LAN 1 port on the SNB5600
- Connect the other side of the Ethernet cable to your computer
- > LAN 1 light will turn on
- Then click on **Continue**
- > A progress bar screen will be displayed

Depending on your modem settings, you might have the following screen displayed.
